RISK WARNING

Collective Investment Undertakings in Securities (CIU) should be considered as medium to long-term investments. The value may go up as well as down and past performance is not necessarily a guide to future performance. CIU's are traded at the ruling price. A schedule of fees, charges and maximum commissions is available on request from the Manager. There is no guarantee in respect of capital or returns in a portfolio. A CIU may be closed to new investors in order for it to be managed more efficiently in accordance with its mandate. CIU prices are calculated on a net asset basis, which is the total value of all the assets in the portfolio including any income accruals and less any permissible deductions (brokerage, VAT, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio divided by the number of participatory interests (units) in issue. Forward pricing is used. The Fund's Total Expense Ratio (TER) reflects the percentage of the average Net Asset Value (NAV) of the portfolio that was incurred as charges, levies and fees related to the management of the portfolio. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. During the phase in period TER's do not include information gathered over a full year.

The investor acknowledges the inherent risk associated with the selected investments and that there are no guarantees. Investors are referred to full details on risks of investing in the Prospectus of the relevant Fund.
